Educational - Short Course Sessions
Cascades Casino Resort
20393 Fraser Highway
Langley, BC V3A 7N2*

**Education Short Course Sessions
Saturday February 20th, 2016, 8:30 AM to 3:30 PM**

AGM: 4:00 to 5:00 PM

Education Courses Available for Continuing Education:

Courses & AGM Attendance qualifies for ASTTBC's mandatory CPD program

You're Choice:

1) Sewerage System Standard Practice Manual Version 3 (SPM V3)

Get ready for the change over to the new SPM in 2016! This training will focus on the changes you need to know for Planning and Installing systems. This session will focus on using Part 2 of the SPM and the references in part three. You will learn how to use the new HLR, LLR, VS and flow rate tables and make decisions on what treatment method and distribution technology to use.

Bring along a system you are planning and we will work through it together!

Course Instructor: John Rowse, B.A.A., C.P.H.I.(C), MA Env. R.O.W.P.

John Rowse, JRSC Ltd., has been in the wastewater business for over 20 years. As the Land Use specialist with the Ministry of Health, John developed the Sewerage System Regulation and wrote B.C.'s first Standard Practice Manual as well as supervising and contributing to the SPM V2. John left government in 2006 to take the Executive Director's position at BCOSSA. John has participated in the development of ASTTBC ORWB; authored education programs and material for Practitioner training. John also participated in the development of Canada's first National design and installation standard CSA B-65 for the onsite industry and Canada's certification standard for treatment plants CAN/BNQ 3680. Today John runs a successful consulting firm which provides services for the onsite industry.

2) Inspection / Maintenance:

Offering maintenance and inspection services to your clients will insure that your business is well rounded. Inspection services can be used to identify wastewater system problems and protect clients during real estate transactions. Maintenance is the key to wastewater system longevity and performance.

This course offers training for practitioners who want to obtain their Inspector or maintenance provider registration.

Course Instructor: Jeff Hay R.O.W.P.

Jeff Hay has worked for 10 years in the onsite industry.

He has worked for Pinnacle Environmental and WSM of Canada where he dealt with systems and problems on a wide range of sites. 4 years with WSM troubleshooting, inspecting and maintaining onsite septic systems of all types. He managed a Ministry of Environment system with of 1.5 cubic meters per day flow. Jeff is active as a member of BCWWA and a director for BCOSSA.

Morning Coffee, Mid-Morning Coffee Break & Lunch included

BC Onsite Sewage Association Member's Annual General Meeting

Saturday February 20th, 2016, 4:00-5:00

Get up to date with your association and see what it is doing for you to protect your right to practice, offering education opportunities a new insurance program and more. Put your opinions forward on what you want from your association in the future. Join the Board of Directors and show your support for the Onsite Wastewater Industry.

After the meeting join us for a Meet and Greet in the Lounge!

Delegate Package includes:

- Course of your choice
- Continental Breakfast
- Refreshments
- Lunch
- Annual General Meeting

Delegate Fee for both the Short Courses and the AGM \$125.00 plus GST.
